

PAINE'S CELERY COMPOUND A Great Reconstructant

REV. JOHN RICE, SEVENTY-FIVE YEARS OLD, Scotch Grove, Iowa, writes:

"My wife and I have used two bottles of Paine's Celery Compound with great advantage to our general health. It cured her rheumatism and proved a good regulator of the system in general and a tonic for the nerves. In my own case I have found it a cure for kidney trouble arising from old age, as I am now in my 75th year. In this trouble it has given me almost instant relief."

The human system in old age must have a large store of nervous energy and rich, nourishing blood. Paine's Celery Compound keeps the liver and kidneys active, and the body strong.

YOUNG LADY'S AWFUL FATE.

Had a Fainting Spell and Fell Into an Open Grave.

RIVERSIDE, Ala., Feb. 2.—While John Scisson, a prominent planter, and his son were in the field and the younger children at school, his daughter, Miss Sallie Scisson, aged 25 years, who was at home and alone, met a horrible death.

The mother had sent the girl to a neighbor's and upon returning found the charred and lifeless body of her daughter lying on the floor with both legs burned off and the head almost burned from the body. The floor of the room was on fire and the house barely escaped destruction.

The young woman was subject to fainting spells, and it is supposed that she was attacked with one of these paroxysms and fell close to an open grate, her clothing taking fire.

The dead girl was very beautiful and popular.

Tennessee River Frozen.

KNOXVILLE, Feb. 2.—The Tennessee river is frozen over solidly at this place. Teams can cross the French Broad and the Holston is also frozen. Steamboats are tied up here, with the exception of one, which is icebound.

What Is a Sleeper?

Here is a definition which is as difficult to read rapidly as "Peter Piper picked a peck of pickled peppers" and yet is more sensible. In fact, it is an actual statement of facts, as you will find if you read it slowly:

A sleeper is one who sleeps. A sleep is that in which a sleeper sleeps. A sleeper is that on which the sleeper sleeps while the sleeper sleeps. Therefore while the sleeper sleeps in the sleeper the sleeper carries the sleeper over the sleeper under the sleeper until the sleeper which carries the sleeper jumps the sleeper and wakes the sleeper in the sleeper by striking the sleeper under the sleeper on the sleeper, and there is no longer any sleeper sleeping in the sleeper on the sleeper.

Pearls and Tears.

"What splendid pearls the bride has! How can a man give his bride pearls? They mean tears."

"Oh, that's superstition! Besides, they are imitation pearls."

"Well, if she knows that the tears will be genuine, at any rate."—Fleegende Blätter.

RECENT INVENTIONS.

For drawing straight lines neatly and without blurring a new implement has a sharp edged disk set in at the end of a handle and a moistening pad connecting the disk with the reservoir to feed the ink to the disk as it is revolved on the paper.

To prevent the sides of a bed from spreading apart and dropping the slats a new attachment is formed of a pair of rods inserted in the side rails, with a turn buckle connecting them at the center to draw the sides together and grip the slats.

Post holes of any size can be rapidly dug by a new implement which has a conical boring tool, with a cutting blade inserted in one side, which cuts a section of earth out of the hole as it is revolved, the tool being lifted out and emptied when it becomes full.

Ends of belts can be rapidly and evenly fastened by a new tool which has two parallel sets of clamping jaws to engage the ends of the belt and draw them together, with slots in the faces of the jaws through which the fasteners are inserted, to be riveted in place.

Indian Trick in London.

The Filipinos wrap their cartridges to make them fit various barrels. This crude adaptation of means to ends must amuse the old Indian fighters in General Oles' army, to whom the principle is by no means a new one. The same trick has long been used by our own Indians, who wrap Winchester cartridges with rawhide and shoot them from their old 50-caliber Martins and Sharp's carbines.

RHEUMATISM—CATARRH,

ARE BLOOD DISEASE—CURED BY B. B. B.

Bottle Free to Sufferers

It is the deep-seated, obstinate cases of Catarrh and Rheumatism that B. B. B. (Botanic Blood Balm) cures. It matters not what other treatments, doctors, sprays, liniments, medicated air, blood purifiers, have failed to do. B. B. B. always promptly reaches the real cause and roots out and drives from the bones, joints, sinuous membrane, and entire system the specific poison in the blood that causes Rheumatism and Catarrh. B. B. B. is the only remedy strong enough to do this and cure and so there can never be a return to the symptoms. Don't give up hope, but try B. B. B. (Botanic Blood Balm) or 3 B's.

NEGROES SENT AS FREIGHT.

Surprised Man's Plan to Transport His Employees Fails.

SAVANNAH, Feb. 2.—A man by the name of Davis decided to ship his turpentine and resin plant from the neighborhood of Columbia, S. C., to Andalusia, Ala. He procured three freight cars, which he loaded and sent via the Southern railroad to Yemassee and from Yemassee, via the Plant system, to this point.

His outfit would doubtless have proceeded via the Plant system to Alabama and not suspicious been aroused with regard to one of the freight cars, which was marked and billed "household and kitchen furniture."

The car inspector of the Plant system was passing through the yards and noticed a negro endeavoring to get out of the little window in one of the freight cars. The car was opened and 27 negroes were found inside.

The police were called on and 28 negroes were arrested. Davis was also arrested. He pleaded guilty. He admitted that 22 of the negroes were his not known.

Davis paid the fares of 22 negroes from Yemassee to Savannah to the Plant system and they were released. Davis then procured tickets for them via the Central railroad to Andalusia, Ala., and they went on their way rejoicing. The other six were detained here as vagrants.

REPORTED ADVANCE STILL UNCONFIRMED

London Officials Get No Word From Buller.

BRITONS MORE HOPEFUL

They Claim That General Joubert Will Certainly Be Overwhelmed Eventually—Some Harsh Criticism For the English Ministry.

LONDON, Feb. 2.—There is no official news from General Buller's headquarters, and the only information which has reached London in any way supporting the reports that he has recrossed the Tugela river is found in an Associated Press dispatch announcing Lord Dondonald's reconnaissance, which is taken to indicate a prelude to renewed activity.

As the dispatch is three days old and Lord Dondonald found no difficulty in crossing the river, it is not impossible General Buller may have moved in the interim, and public anxiety is again concentrated on the Upper Tugela.

Dispatches from elsewhere in South Africa merely tell of desultory shell firing and the movements of patrols, though Cape Town mentions a rumor that General French has captured 800 Boers, where and when not being announced.

There is a decidedly more cheerful feeling in London. The confirmation of the report that General Buller had announced that he would relieve Ladysmith, together with the unconfirmed report that he had actually begun a new forward movement had good effect on the public mind.

Figures just published have had a reassuring effect. The government announces that it was ascertained before the war began that the Boers could put 50,000 men into the field. The British, in a few days, will have 213,000 men in South Africa. General Joubert, according to late advices, has 19,000 men surrounding Ladysmith and confronting General Buller.

In the recent turning movement General Buller lost 1,985 men, but the places are filled. The Boers have no means of replacing the lost men with fresh soldiers. Looking at the matter in this light, it is as inevitable that Joubert will be beaten as it was that Grant would take Richmond.

Few dispatches are now allowed to come through from the seat of operations around Coleberg, and General Roberts is clearly anxious to direct attention from the work in progress in co-operating with General Gatacre and General French. The Dutch garrisons, both at Stormberg and Coleberg, have been reinforced and the Boer strategists are striving to repeat their tactics at Magerfontein, Colenso and Spion Kop by creating a new impasse, by which the British invasion of the Free State may be blocked.

The military experts are inclined to be easier with Buller since he and his army are so undaunted and the harsh criticism is shifting to the ministry.

WINE OF CARDUI

Woman's
Crowning Virtue.

BELTON, Mo., July 27.

For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was so despondent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.

MRS. MINNIE LITTLE

McFEE'S
Wine of Cardui

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.
